Out for Undergrad (O4U)

To better reach and support the LGBTQ+ students the community, O4U wants to give them one last chance to apply to attend our Fall 2020 Engineering conference.

The O4U engineering conference team has been hard at work developing a world-class digital event this fall. Although they may not be able to gather in person, they are excited to virtually convene a group of bright LGBTQ+ students and mentors for professional and personal development! This conference is a fantastic opportunity to meet and network with employers from a variety of different companies such as the Central Intelligence Agency (CIA), Clorox, Medtronic, Toyota, and [many more](#).

The application round will open on July 27th, at 12 PM PST, and will continue through August 9th, until 11:59 PST. The application will be available here: <https://www.outforundergrad.org/apply>

Student Startup Center Entrepreneurship Classes

The Student Startup Center supports students across UC Davis in practicing entrepreneurship and creativity. They believe UC Davis students are capable of solving big problems, applying their UC Davis education and the resources of the university. They also believe that entrepreneurship is an effective problem-solving tool.

One of their core offerings is **Introduction to Entrepreneurship (ENG 008)**. In this course, students work on inter-disciplinary teams to work through the critical elements of entrepreneurship. It is **an excellent opportunity for students new to the university to meet other Aggies while learning together.**

Whether or not your students ultimately found businesses, entrepreneurship education helps them develop the teamwork, creativity, problem-solving, and leadership skills that can help them succeed in any environment.

Please take a moment to view a short introduction from the Student Startup Center director and Intro to Entrepreneurship professor to learn a little more about our philosophy: <https://www.youtube.com/watch?v=n9gZxhmC2M0&t=4s>

Get to Know the AATC

Get to know the AATC! Something for every type of learner.
