Future of Work Series: “Incubators and Accelerators: Growing Innovative Ideas”

The UC Davis Science & Technology Studies Program is pleased to announce the third installment in a new speaker series on the Future of Work at UC Davis. Join us as we bring together experts in industry, government, and academia to discuss new and emerging fields of research and employment.

Their next talk will be held on **November 14th, from 5:30-7:30pm**, and will feature **Qasar Younis** (former COO of Y Combinator, co-founder and former CEO of Talkbin, CEO of Applied Intuition) and **Rao Unnava** (Dean of UCD Graduate School of Management, co-founder of Angie's List).

The talk will be held at the **Alumni Center** in **Alpha Gamma Rho Hall**, and will end with a student-led Q&A powered by anonymous polling. Before the talk, there will be a **reception with free pizza and cupcakes**. Although an Eventbrite ticket isn't required for entry, those who register on Eventbrite and bring a copy of their ticket (physical or electronic) with them will have their name added to a **raffle to win a UC Davis Stores gift card**.

**THURSDAY, NOVEMBER 14, 2019
5:30 P.M. RECEPTION / 6-7:30 P.M. EVENT
WALTER A. BUEHLER ALUMNI CENTER, AGR HALL**

futureofwork.ucdavis.edu |  @futureofwork.ucdavis

Who are these talks meant for?

- Students who are unsure of how to leverage their majors in the changing workforce.
- Students who are interested in the technical aspects of new industries as well as the non-technical aspects.
- Students who are torn between industry, entrepreneurship, public sector work, and academia.
- **Students who feel like [this](#).**

Each event in our series will center around a different topic: biotechnology, artificial intelligence,

automation, new media, autonomous vehicles, food insecurity, green technology, ed-tech and education reform, the future of medicine, virtual and augmented reality, redefining how we think of “work” itself, etc. We encourage students from all majors to attend. Although some of the topics in our series will seem more STEM-oriented, students from the social sciences and humanities will always have a place.

For more information and updates, visit our [Facebook](#). And of course, please RSVP at our [Eventbrite](#). They welcome undergraduate students, graduate students, faculty, and staff alike.

WTS “Understanding How Women Travel”

WTS at UC Davis will be hosting Dr. Cheryl Croshere, a Transportation Planner with Fehr & Peers, where she will tell us about her recent project, *Understanding How Women Travel*. This project was an effort to understand the unique and diverse mobility needs of women in LA County. It also is set to form the foundation on which the LA Metro can develop a future Gender Action Plan. Please see the attached flyer for more information.

Asian Pacific Islander Fall Mixer

CSRC “Cans”-Giving Food Drive

The Community Service Resource Center needs your help! They are hosting ‘CANS’-Giving, a canned food drive, starting **this Wednesday, November 6th until November 26th**. Stop on by **106 South Hall** with your donations. If you or your organization donate enough goods, you may be eligible for some prizes! All cans will be donated to the ASUCD Pantry, the campus food resource for all UCD students! The Community Service Resource Center really thinks that students like you can make a huge impact on our community by donating canned goods. 1 donation feeds 1 person for 1 meal! We’d really appreciate the support of your organization. Here are some incentives!

1. If one person donates more than 15 cans, they will receive a free t-shirt!
2. If your organization donates the MOST cans, you will be featured as our Organization of the Month, which is posted on all of our social media platforms. This includes our weekly newsletter, which is sent to over 5,000 people! (You’ll also be in the running for organization of the year J)

Please drop-off donations to **106 South Hall**. Check out our [event on Facebook](#) to keep updated on the standings!

Chicano and Latino Engineers & Scientists Society (CALESS)

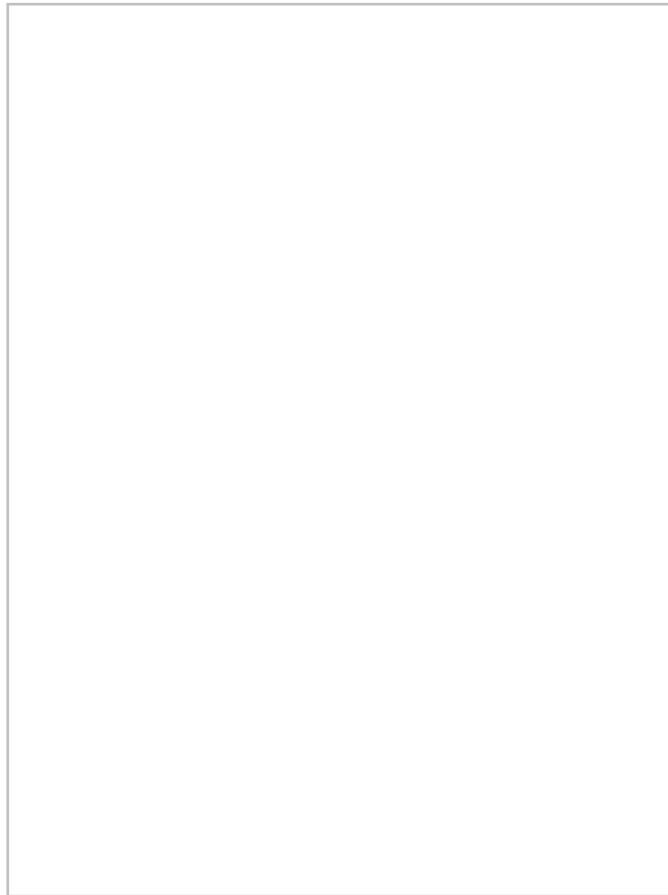

The Chicano and Latino Engineers & Scientists Society (CALESS) would like to invite everyone to the following opportunities! All majors and races are invited!

CALESS emphasizes that you **do not have to be** a “Paid”, “Active” or “Dedicated” member to be in CALESS.

Join Mark Arax as he discusses his latest book, *The Dreamt Land: Chasing Water and Dust Across California*

Reception to follow the event, light refreshments will be served.

Mark Arax is from a family of Central Valley farmers, a writer with deep ties to the land who has watched the battles over water intensify even as California lurches from drought to flood and back again. In *The Dreamt Land*, he travels the state to explore the one-of-a-kind distribution system, built in the 1940s, '50s and '60s, that is straining to keep up with California's relentless growth. Arax's heartfelt, beautifully written book is about the land and the people who have worked it—from gold miners to wheat ranchers to small fruit farmers and today's Big Ag.

Mark Arax is an author and journalist whose writings on California and the West have received numerous awards for literary nonfiction. He is a former staffer at the *Los Angeles Times*, and his work has appeared in the *New York Times* and the *California Sunday Magazine*. His books include a memoir of his father's murder, a collection of essays about the West and the best-selling *The King of California*, which won a California Book Award and the William Saroyan Prize from Stanford University, and was named a top book of 2004 by the *Los Angeles Times* and the *San Francisco Chronicle*. He lives in Fresno, California.
