

# Undergraduate Research Program

## Virtual Information Session

Tuesday, November 9, 2021 | 9:00 a.m. - 12:00 p.m. MDT

The CSU Department of Mechanical Engineering maintains a world-renowned research program and a longstanding commitment to excellence in undergraduate research. The summer research program will provide a diverse group of undergraduate students with immersive research experiences in Aerospace Engineering, Biomedical Engineering, Energy, and Materials and Manufacturing.

This information session will introduce students to Mechanical Engineering research areas, faculty, and facilities and is an opportunity for students to meet and identify potential faculty summer program sponsors.

Aerospace Engineering

Biomedical Engineering

Energy

Materials & Manufacturing

**Minimum 3.4 GPA required | Apply to the session: visit [www.engr.colostate.edu/me/srp](http://www.engr.colostate.edu/me/srp), upload your resume and cover letter, and submit the online application by 11:59 p.m. on October 24, 2021.**
