WHAT IS SCIENCE OLYMPIAD?
An academic competition where middle school and high school students across the nation compete in a variety of science-related events.

WHAT DO WE DO?
We host an annual competition for high schoolers, the Aggie Invitational. We also mentor local Science Olympiad competitors.

GET INVOLVED!
Help create tests, become a mentor for the local high school, or volunteer on competition day.

EXAMPLES OF EVENTS:
Forensics: use chemistry to solve a crime
Sounds of Music: build an instrument and learn the physics of sound
Ornithology: test your bird knowledge
Cybersecurity: practice programming and cryptography
