

Civil and Environmental Engineering Announcements

Week 8 -- May 19, 2022

Happy Week 8!

1. Get Involved on Campus

- a. BioInnovation Club General Meeting

2. Career / Internship

- a. DWR-FAB: 3 Student Assistant positions available - filing deadline 5/26/2022-REV
- b. Civil Engineering Internship MCR Engineering
- c. Use Your Federal Work-Study to Get Hired

3. Scholarships

- a. The Obama Voyager Scholarship

Get Involved on Campus

BiInnovation Club General Meeting

BIOINNOVATION GROUP 2ND GENERAL MEETING

Come learn about our
accomplishments this quarter!

MONDAY, MAY 23, 2022
7 - 8 PM
115 WELLMAN HALL

The BioInnovation Group at UC Davis is holding their second general meeting this upcoming Monday, May 23rd at 7-8pm in Wellman Hall 115. Come by to learn about what our hardworking research teams have accomplished in recent weeks, as well as ways to get involved with upcoming BIG events and projects. We hope to see you all there!

Career / Internship

DWR-FAB: 3 Student Assistant positions available - filing deadline 5/26/2022-REV

DWR has three Student Assistant positions available in the Financial Assistance Branch that works on Sustainable Groundwater Management, Drought and Integrated Regional Water Management grants. (I now work with this team). The final filing date is Thursday, 5/26/2022.

Please see the link and job notice below.

<https://www.jobs.ca.gov/CalHrPublic/Jobs/JobPosting.aspx?JobControlId=302727>

We're looking for 3 student assistants to join our diverse team of scientists, engineers, geologists and program managers! Come learn new skills and grow your resume while helping us deliver millions of dollars in new state funding to communities across the state to build resilience to drought and other impacts of climate change on our precious water resources. These positions are based in Sacramento but we are operating in a hybrid remote and in-person work environment. We look forward to receiving your application!

Civil Engineering Internship MCR Engineering

Company Name: MCR Engineering

Company Website: <https://www.mcreng.com/>

Job Application Site: <https://www.linkedin.com/jobs/view/3050539246> or via the Website

Location: Manteca, CA

Job Description:

MCR Engineering is seeking engineering students for a summer internship. This will be a full-time summer position with the potential to continue on as a part-time or full-time position during the school year. Students will be assisting the engineering staff with project-related tasks but including:

- data calculations
- research analysis
- design of plans and specifications
- construction services including fieldwork

also anything they might not know or don't have much experience we would be more than happy to help them learn especially AutoCAD and Civil3D.

Use Your Federal Work-Study to Get Hired

UC Davis is participating in the Federal Work-Study Experiment. This program is available to students awarded Work-Study. These paid positions provide the opportunity to explore careers – including experiences in the private-sector. They can also give you an opportunity to apply coursework, improve learning and lead to better career outcomes. Employers that are participating in the experiment will post their positions in Handshake. **Filter job postings by searching XFWS in Handshake.**

Scholarships

The Obama Voyager Scholarship

The [Obama Voyager Scholarship](#) is a collaboration between Barack and Michelle Obama and Airbnb's Brian Chesky. It is designed for rising juniors (including incoming transfers) with GPA's of 3.0+ that intend to enter careers in public service. Applicants can be U.S. citizens, permanent residents, or granted DACA. There will be 100 scholarship recipients who will receive the following:

- Financial aid up to \$50,000: Students will receive up to \$25,000 per year in “last dollar” financial aid to cover remaining tuition and/or living costs for their junior and senior years of college. This last-dollar approach builds on other financial aid programs and helps ensure the students can pursue a career in public service and are not constrained by crushing student debt.
- Summer Voyage: President Obama and Brian have different backgrounds, but share the fundamental belief and lived experience that exposure to new places and experiences broaden our horizons and redefine what we believe is possible. With a budget of \$10,000, students will design their own summer voyage between their junior and senior year of college. The experience will allow students to pursue internships or mentorship opportunities anywhere in the world that will broaden their horizons and prepare them for careers in public service. Students will also be able to stay in homes on Airbnb using credits provided by Airbnb.
- 10-year travel stipend: After graduation, Airbnb will provide the students with a \$2,000 travel credit every year for 10 years, totaling \$20,000. This will allow students to continue to broaden their horizons and forge new connections throughout their public service careers.
- Fall Summit: Voyagers will be invited to an annual Fall Summit. This fall, the summit will include a meeting with President Obama, Brian Chesky, and other leaders. They will also get access to a network of other Voyagers and alumni with whom they can connect with at the summit and beyond.
- A network of leaders: Throughout the program, students will be invited to an ongoing speaker series, giving them access to a network of leaders. This network of leaders will expose them to new areas of service and innovations happening in their fields. After graduation, they will join the Obama Foundation’s global community, providing them with Foundation resources and programming.
- Preference may be given to applicants with no or limited prior engagement with other leadership programs in their undergraduate experience. Students must demonstrate financial need to be considered for the program.

Applications are due **June 14th**
